1. READ THE TEXT

A Typical Week for Alex

Alex is 18 years old and lives in a small apartment with his mother and his younger brother. He is a college student and studies Business Administration. His college is about thirty minutes from his home, so he usually takes the bus in the morning. His classes start at 8:00 a.m., and he normally gets home around 2:00 p.m.

After lunch, Alex usually does his homework and studies for his classes. On Tuesdays and Thursdays, he goes to the gym with his best friend, Ben. They usually work out for about an hour and a half. Alex enjoys going to the gym because he likes being active and spending time with his friends.

In the evening, Alex usually watches series, listens to music, or plays video games. On Fridays, he doesn't stay home. He often meets his friends at a coffee shop near his college. They talk, listen to music, and sometimes make plans for the weekend.

Alex is also studying English because he wants to travel abroad in the future. He would like to visit Australia and Canada, and he hopes to use English to communicate with people from different countries. For him, learning English is challenging, but it is also an important part of his plans for the future.
